

Green House Café – Our Commitment to Sustainability

At Green House Café, we believe in preserving the beauty that surrounds us. Being located near the lush mountains and rivers of Badulla, we take pride in eco-conscious operations.

What we do:

- No plastic straws – we use paper or metal straws.
- Compostable takeaway containers.
- Locally sourced ingredients whenever possible.
- Regular community clean-up events.

We aim to become one of Badulla's first zero-waste cafés by 2026.

Together, let's brew a better future.
